

Curriculum Intent

Curriculum Vision - Politics

The Politics A-level curriculum is designed to equip students with a comprehensive understanding of the academic study of politics. The goal of the curriculum is to foster critical thinking, encourage active citizenship, and prepare students for further study in politics, law, and related fields.

Our aim is to equip NKS Politics students with the knowledge and confidence to actively engage in political discourse relating to the UK, the USA and political ideas, thus helping empower them to become politically astute citizens.

We strive to instill in our students a sense of inquisitiveness about the world around them and its governing mechanisms.

Our curriculum endeavors to cultivate students' ability to pose insightful inquiries, think critically, evaluate evidence, analyse arguments, and develop their own perspectives and judgments.

Studying Politics facilitates students' comprehension of the intricacies of society and government, the diverse forces and factors that impact politics and society, and the debates that have influenced and continue to shape our contemporary world.

My Politics Journey
